Professional Summary

Aspiring Data Analyst and Data Science professional with hands-on experience in Data Analytics, Machine Learning, Natural Language Processing, and Business Intelligence. Skilled in Python, SQL, Power BI, Tableau, and data visualization. Experienced in building analytical dashboards, sentiment analysis systems, and AI-powered applications to generate actionable business insights.

Education

Bachelor of Engineering (B.E.)

2022 – 2026

AMC Engineering College, Bengaluru

CGPA: 7.23 / 10

Internships

Data Science & Data Analytics Intern

2025

Cognifyz Technologies (Remote)

- Performed data cleaning, preprocessing, and exploratory data analysis using Python, Pandas, and NumPy.
- Created visualizations using Matplotlib and Seaborn to identify business trends and insights.
- Worked with SQL queries for data extraction, transformation, and reporting.
- Applied machine learning techniques for predictive analytics and model evaluation.
- Generated dashboard-ready reports for business intelligence applications.

Data Science & Analytics Trainee

2025

Simplilearn (Remote)

- Completed practical training in Data Analytics, Machine Learning, and Business Intelligence.
- Developed mini-projects using Python, SQL, Power BI, and Tableau.
- Implemented regression, classification, and clustering algorithms on real-world datasets.
- Strengthened analytical and reporting skills through hands-on case studies.

Projects

Twitter Sentiment Analysis Web Application

Python, NLP, Streamlit, Flask, Twitter API, RoBERTa, VADER, Detoxify

- Developed a real-time Twitter sentiment analysis platform.
- Implemented RoBERTa Transformer, VADER sentiment analysis, emotion classification, and toxicity detection.
- Integrated Twitter APIs for real-time tweet collection and processing.
- Built interactive dashboards to visualize sentiment trends and insights.

Jarvis AI Assistant

Python, NLP, Speech Recognition

- Developed a voice-controlled AI assistant for automation tasks.
- Integrated speech recognition and text-to-speech technologies.
- Enabled web search, application launching, and voice command execution.
- Improved user interaction through natural language communication.

Technical Skills

Programming Languages: Python, SQL

Python Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Plotly, NLTK, Transformers

Data Analytics: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, KPI Analysis

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Natural Language Processing: Sentiment Analysis, Text Preprocessing, Tokenization, Transformer Models

Visualization Tools: Power BI, Tableau, Plotly, Matplotlib, Seaborn

Databases: MySQL, NoSQL

Tools & Platforms: Git, GitHub, Streamlit, Flask, Jupyter Notebook, VS Code, Google Colab

Certifications

- Cognifyz Technologies – Data Science & Data Analytics Internship
- Simplilearn – Data Science Training Program
- Professional Certification Portfolio (Google Drive Repository)

Core Strengths

- Data Analytics and Business Intelligence
- Machine Learning and Predictive Analytics
- Problem Solving and Critical Thinking
- Data Visualization and Reporting
- Team Collaboration and Communication

Languages

English, Kannada, Telugu
