Professional Summary

Aspiring Data Analyst with hands-on experience in Python, SQL, Power BI, Data Visualization, and Exploratory Data Analysis (EDA). Skilled in transforming raw data into actionable business insights through dashboards, statistical analysis, and reporting. Experienced in developing analytics projects involving sales analysis, business intelligence dashboards, and sentiment analysis applications.

Education

Bachelor of Engineering (B.E.)

2022 – 2026

AMC Engineering College, Bengaluru

CGPA: 7.23 / 10

Work Experience

Data Science & Data Analytics Intern

2025

Cognifyz Technologies — Remote

- Performed data cleaning, preprocessing, and exploratory data analysis using Python, Pandas, and NumPy.
- Created analytical visualizations using Matplotlib and Seaborn to identify business trends and insights.
- Worked with SQL queries for data extraction, transformation, and reporting.
- Applied machine learning techniques for predictive analytics and model evaluation.
- Generated dashboard-ready reports for business intelligence applications.

Data Science & Analytics Trainee

2025

Simplilearn — Remote

- Completed practical training in Data Analytics, Machine Learning, and Business Intelligence.
- Developed mini-projects using Python, SQL, Power BI, and Tableau.
- Implemented regression, classification, and clustering algorithms on real-world datasets.
- Strengthened analytical and reporting skills through hands-on case studies.

Projects

Superstore Sales Analysis

🐙 Repository

Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

- Performed end-to-end analysis on 9,800+ retail sales records using Python and Pandas.
- Conducted data cleaning, preprocessing, and exploratory data analysis (EDA).
- Analyzed regional performance, customer segments, category-wise sales, and monthly sales trends.
- Created visualizations using Matplotlib and Seaborn to generate business insights.
- Published project documentation and analysis workflow on GitHub.

Superstore Sales Analysis

🐙 Repository

Power BI, DAX, Business Intelligence, Data Visualization

- Designed and developed an interactive sales analytics dashboard using Power BI.

- Built KPI cards for Total Sales, Total Orders, and Total Customers.
- Created regional sales analysis, category performance reports, and customer segmentation dashboards.
- Implemented dynamic filtering using Region and State slicers.
- Enabled data-driven decision-making through business intelligence visualizations.

Twitter Sentiment Analysis Web Application

Python, NLP, Streamlit, Flask, Twitter API, RoBERTa, VADER, Detoxify

- Developed a real-time Twitter sentiment analysis platform for social media analytics.
- Implemented RoBERTa Transformer, VADER Sentiment Analysis, Emotion Classification, and Toxicity Detection.
- Integrated Twitter APIs for real-time tweet collection and sentiment monitoring.
- Built interactive dashboards to visualize sentiment trends and business insights.

Technical Skills

Programming Languages: Python, SQL

Python Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Plotly, NLTK, Transformers

Data Analytics: EDA, Data Cleaning, Data Wrangling, Statistical Analysis, KPI Analysis

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Natural Language Processing: Sentiment Analysis, Text Preprocessing, Tokenization, Transformer Models

Data Visualization: Power BI, Tableau, Plotly, Matplotlib, Seaborn

Databases: MySQL, NoSQL

Tools & Platforms: Git, GitHub, Streamlit, Flask, Jupyter Notebook, VS Code, Google Colab

Certifications

- Cognifyz Technologies – Data Science & Data Analytics Internship Certificate
- Simplilearn – Data Science & Analytics Training Program

Languages

English, Kannada, Telugu
